Loads

## Features & Benefits

### High Protein & Energy

To boost daily gains.

### Healthy

Special mineral/vitamin blend to ensure micronutrient supply.

### Dust Controlled

Minimal dust to encourage higher intake by calves.

### Palatable

Sweet and tasty for baby calves, cleverly created to entice curiosity. With molasses and calf-friendly flavours, it sticks to wet noses to introduce calves to the concept of solid food.

## Feeding Directions

- **Day 1** – Ensure the calf receives adequate colostrum. Aim to feed 10% of its weight in colostrum within the first 24 hours of life, in two separate feeds.
- **Day 2 – 5** – In the first days of life, milk intake should reach 12% of live weight (assuming that whole milk is being fed). This may be split into two feeds a day, morning, and afternoon.
- **Week 2-3** – Continue to feed 12% of live weight as milk, split into two feeds a day. Combine Reid Stockfeeds' Calf Rearer with Reid Stockfeeds Baby Calf, progressively increasing the Calf Rearer to 100% by the end of the third week of the calf's life.
- **Week 4-9** – Ensure concentrate intake is steadily increasing. Forage intake should also be increasing.
- **Week 10+** – Gradually reduce milk intake over a two-week period. During this time, grain and water intake should be continually increasing.
- **Week 12** – Continue to feed forage and Reid Stockfeeds Calf Rearer or Calf Weaner until the calf reaches 200kg.
- Baby Calf Muesli is suitable for the first 1-4 weeks of a cow's life, can be fed twice daily.
- Calves should always have access to fresh, clean water and high-quality fibre such as barley straw.
- Calves should continually increase their intake of all feeds and water.
- Changes to milk volume should be limited to 1/2 litre per feeding.
- Recommended feed rates may vary, depending on fodder quality, stage of cycle and liveweight. Speak to a Reid Stockfeeds Nutritionist to obtain tailored advice for your individual circumstance.

## Ingredients Selected From

Maize, barley, lupins, canola meal, modified molasses, canola oil, lucerne chaff, oregano extract, and a vitamin and trace mineral premix.

## Storage Requirements

Store in a vermin free, cool, dry place, protected from direct sunlight. Best within 6 months of manufacture date.
