## Features & Benefits

### Performance

Optimised for top finishing performance, includes a rumen buffer to reduce the risk of digestive upsets, and has added monensin sodium for improved growth rates and better feed conversion.

### Convenient

Simplifies your feeding program, ensuring your cattle receive the essential nutrients they need for optimal health.

### Consistent

Micronutrients, including vitamins, minerals and buffers for reliable growth and development.

### High Energy

Balanced blend to help aid in achieving growth targets quicker, while maintaining a good health status.

## Feeding Directions

- Introduce pellets gradually to avoid rumen upset.
- Introduce at 200 grams/head/day, once all bulls/steers are consuming, increase by 100-200 grams/head/day up to desired feed rate, before allowing ad lib access.
- Beef cattle on ad lib access should consume 1-2% of their liveweight per day (as fed).
- Always offer a source of long fibre (straw or hay).
- Ensure livestock always have access to clean, fresh water.
- Recommended feed rates may vary, depending on fodder quality, stage of cycle and liveweight. Speak to a Reid Stockfeeds Nutritionist to obtain tailored advice for your individual circumstance.

## Ingredients Selected From

Legumes, cereal grains, oil seeds, fibre sources, limestone, canola oil, molafos, acid buf, salt, magnesium oxide, vitamin/mineral premix, urea, monensin.

## Storage Requirements

Store in a vermin free, cool, dry place, protected from direct sunlight. Best within 12 months of manufacture date.
