## Features & Benefits

### Performance

Calf rearing feed promotes final stage-rumen development and muscular growth, ensuring stronger, healthier calves.

### Convenient

Simple feeding routines and support calf growth with our easy-to-use feed.

### Consistent

Our feed delivers reliable results, ensuring consistent growth and development in weaners.

### Palatable

With a great taste and high acceptance, our feed encourages calves to consume essential nutrients for healthy growth.

## Feeding Directions

- Introduce grain gradually to avoid rumen upset.
- **Day 1** – Ensure the calf receives adequate colostrum.
- **Day 2 – 5** – In the first days of life, milk intake should reach 12% of live weight. This may be split into two feeds a day, morning, and afternoon. Introduce a high quality roughage (eg Barley Straw) and Reid Stockfeeds Baby Calf Muesli and allow ad lib access to both.
- **Week 2-3** – Continue to feed 12% of live weight as milk, split into two feeds a day. Shandy Reid Stockfeeds' Calf Rearer with Reid Stockfeeds Baby Calf, progressively increasing the Calf Rearer to 100% by the end of the third week.
- **Week 4-9** – Ensure concentrate intake is steadily increasing to 1-1.15kg/calf/day. Forage intake should also be increasing. Continue to feed 5-6 litres of milk.
- **Week 10+** – Gradually reduce milk intake over a two-week period. During this time, grain and water intake should be continually increasing. Shandy Calf Weaner with Calf Rearer, gradually increasing to 100% Calf Weaner by Week 12.
- **Week 12** – Continue to feed forage and Reid Stockfeeds Calf Weaner until the calf reaches 200kg.
- Calves should always have access to fresh, clean water and high-quality fibre such as barley straw.
- Calves should continually increase their intake of all feeds and water.
- Changes to milk volume should be limited to 1/2 litre per feeding.
- Recommended feed rates may vary, depending on fodder quality, stage of cycle and liveweight. Speak to a Reid Stockfeeds Nutritionist to obtain tailored advice for your individual circumstance.

## Ingredients Selected From

Barley, wheat, lupins, canola meal, soybean meal, molafo, canola oil, lucerne chaff, limestone, salt, acid buf, magnesium oxide, fylaxflo, milky vanilla flavour, oregano extract, and a vitamin and trace mineral premix.
