Features & Benefits

Performance

Encourages optimal dry matter intake and post-calving oestrus activity, leading to improved lactation performance and reduced health risks.

Convenient

Designed for easy integration into springing cow diets, enhancing overall herd health and productivity.

Consistent

Provides reliable support throughout the transition period, promoting consistent dry matter intake and metabolic balance.

Palatable

Formulated with ingredients that ensure palatability, encouraging consistent consumption and nutrient uptake in transitioning cows.

Feeding Directions

- Introduce grain gradually to avoid rumen upset.
- Feed Reid Stockfeeds Springer 20 for a minimum of 21 days prior to calving.
- Feed at a rate of 4kg per cow per day and ensure access to good quality cereal or pasture hay, and a small amount of pasture (if available).
- After calving, remove Springer 20 from the diet.
- Ensure livestock always have access to clean, fresh water.
- Recommended feed rates may vary, depending on fodder quality, stage of cycle and liveweight. Speak to a Reid Stockfeeds Nutritionist to obtain tailored advice for your individual circumstance.

Ingredients Selected From

Wheat, barley, lupins, canola meal, canola oil, molafos, anionic salts, urea, flavours, vitamins, and minerals.

Storage Requirements

Store in a vermin free, cool, dry place, protected from direct sunlight. Best within 6 months of manufacture date.
