## Features & Benefits

### Performance

Supports optimal animal health and performance with a well-balanced nutrient profile.

### Convenient

Streamlines management and labour with easy feeding and handling processes.

### Consistent

Provides reliable nutrition to meet flock requirements, ensuring consistent growth and reproduction.

### Palatable

Minimises dust and offers a palatable choice to encourage consistent consumption and feed efficiency.

## Feeding Directions

- Introduce pellets gradually to avoid rumen upset.
- Introduce at 50-100 grams/head/day, once all lambs are consuming, increase by 50 grams/head/day up to desired feed rate, before allowing lambs ad lib access.
- Finishers on ad lib access should consume 3-3.5% of their liveweight in grams per day (as fed).
- Always offer a source of long fibre (straw or hay).
- Ensure livestock always have access to clean, fresh water.
- Recommended feed rates may vary, depending on fodder quality, stage of cycle and liveweight. Speak to a Reid Stockfeeds Nutritionist to obtain tailored advice for your individual circumstance.
